PROFESSIONAL SUMMARY

Dynamic Full Stack Developer with expertise in building responsive web applications. Proficient in React, Node.js, Hono, and various databases (MongoDB, SQL, MySQL). Leverages modern tools and AI for efficient development and high-quality code. Seeking to contribute to innovative digital solutions.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL, HTML5, CSS3, Langchain js
Frontend: React, React Router, TypeScript, Zustand, TanStack Query, Vite, npm
Backend: Node js, Hono, REST API, JSON, Bun
Database: MySQL, Redis, Mongo DB, Drizzle ORM
AI & Tools: LLM, SLM, RAG, MCP, Git, GitHub, Docker, Copilot, Notebook LM
Render, Clerk, Groq, Agent CLI, Manus AI (automation), Kimi(research)

PROJECTS

ChronicleAI - AI-Powered Historical & Scientific News Blog Platform

ChronicleAI is a full-stack AI application that generates high-quality historical and science-based articles using cloud LLMs. The platform combines intelligent prompt engineering with modern frontend technologies to provide engaging, readable, and SEO-friendly blog content. It demonstrates real-world AI integration by transforming user prompts into structured articles while maintaining a clean user experience

Key Features

- AI-generated historical articles
- Scientific discoveries and mystery topics
- Politics & society news generation
- Responsive modern UI
- SEO-friendly article layout
- Cloud LLM integration
- Category-based article generation
- Fast loading interface
- Production-ready architecture

CampConnect - Full Stack Camping Reservation & Management Platform

CampConnect is a scalable full-stack web application designed for campground management and online reservations. The application demonstrates complete CRUD operations, authentication workflows, RESTful API development, MySQL database management, and responsive frontend design. The project follows clean architecture principles and separates frontend and backend into independently deployable applications.

EDUCATION

Bachelor of Computer Application (BCA) – Bharath College of Science and Management, Thanjavur, Tamil Nadu |
Expected Graduation: May 2026 | CGPA: 7.49 / 10
Relevant Coursework: Data Structures & Algorithms · OOP · DBMS · Web Development · AI/ML Fundamentals · Software Engineering

CERTIFICATIONS

- ReactJS for Beginners – Simplilearn | December 2025 | Certificate Code: 9565895
- AI for Business Professionals – HP Foundation (HP LIFE) | June 2026
- Generative AI with IBM – Naan Mudhalvan Program, TNSDC | November 2025
- The MCP Course: Unit 1 – Fundamentals of MCP – Hugging Face | February 2026
- Claude Code in Action – Anthropic | February 2026 | Certificate No: bsqe9gyrdq5e

CORE COMPETENCIES & LANGUAGES

Competencies: Adaptability · Self-Motivation · Attention to Detail · Time Management
Languages: English (Professional Working Proficiency) · Tamil (Native)
